

## Featured Application: Water-Reducible Alkyds

Moly-White products are highly effective for water-reducible alkyd primer applications. The following compares the performance of Moly-White MZAP versus a number of competitive products (loading: 1.0 lb/gal) in a water-reducible alkyd primer formulation based on Eastman's 74-7478 wr alkyd resin (CRS, 1.2 mils dft). Please download/request application bulletin No. 9850 for full details.

### 500 hr Salt-Spray (ASTM B117) Results

### 1,008 hr Cyclic Salt-Spray/UV Exposure (ASTM D5894) Results
